 LA PREDÀ COME NATURA CREA

ORIGIN	TYPE OF MEAT, FLOWERS, FRUITS and VEGETABLE
 Oceanic salmon	<b>WILD-CAUGHT SALMON FROM THE OCEAN</b> The meat has a better maturation, with a much lower content of fat compared with the reared salmon, but much richer in high quality proteins and essential Omega 3 fatty acids (especially EPA and DHA).
 German duck	<b>DUCK REARED IN GERMANY</b> Duck is the symbol of the German livestock production and has been reared in the local farms for centuries now, originally imported in Germany from China in the second half of the XIX century. There are many recipes where duck is used, as main refined and sophisticated ingredient.
 Dutch eggs	<b>WHOLE EGGS LAID IN THE NETHERLANDS</b> The Netherlands is famous for egg production. These are the best because laid by chickens preferably reared outdoor, considering that exercise promotes production.
 European rosemary	<b>ROSEMARY CULTIVATED IN THE EUROPEAN PLAINS</b> The product is naturally preserved, excluding the use of antioxidants and preservatives from chemical synthesis such as BHA and BHT. This function is provided by rosemary and natural extracts rich in vitamin E.
 French green peas	<b>GREEN PEAS CULTIVATED IN FRANCE</b> The cooked dehydrated green peas have a lower index (22) in comparison with rice (66/69), maize (59), bananas (58), wheat (42/48), Bartlett pears (41), Golden Delicious apples (39), chickpeas (31/36) and lentils (28/37). The better glucose absorption management of the peas prevents rapid glycemia peaks predisposing to diabetes, as it happens with cereals and potatoes, recreating the same natural nourishment conditions.
 Italian chestnuts	<b>ITALIAN CHESTNUTS</b> They are from the hills just before the Maritime Alps, in the Monregalese area, with a good quantity of minerals and vitamins A and of B and C group. They are gluten-free, but rich in dietary fibers reducing calories.
 Mediterranean Hibiscus flowers	<b>HIBISCUS FLOWERS CULTIVATED IN THE EUROPEAN HILLS</b> Hibiscus calyxes and epicalyxes: the flower extracts were proven to have anti-bacterial, antioxidantizing, nephro- and hepato-protective, antidiabetic and anti-hypertensive effects.
 European Rosa canina and Rosa pendulina	<b>ROSA CANINA AND ROSA PENDULINA FROM EUROPEAN PROMONTORIES</b> "Fake fruit" of Rosa canina and Rosa pendulina: the active ingredients contained in the fruit were proven to reduce osteo-arthritis, thanks to their anti-inflammatory and chondro-protective properties, preventing the cartilage wear. They have a strong antioxidant and anti-proliferating activity against tumour cells. They are also useful to slow down the skin ageing process, supporting the skin elasticity and the best skin hydration.
 European blackberries, raspberries and strawberries	<b>BLACKBERRY, RASPBERRY AND WILD STRAWBERRY FROM EUROPEAN MOUNTAIN</b> Wild strawberries hold essential oils, tannins and flavones, as well as vitamin C. Raspberries reduce fatigue after long-term physical efforts, thanks to their anti-inflammatory features. They also support the energy employment of fats. Blackberries have powerful anti-inflammatory effects, very useful against intestine inflammation. All berries stand out for their anti-cancer features, as it reduces cancer vascularization.

### COMPOSITION

#### Natural Instinct

Complete food for puppies

Dried deboned Iberian Cerdo, peas, dried cooked duck (16%), freshly prepared sea caught salmon dried (14%), animal fat, broken chestnuts, hydrolysed animal proteins, eggs (2%), hibiscus flowers (0,192%), Rosa canina L. and Rosa pendulina L. flowers (0,024%), raspberries (0,008%), blackberries (0,008%), strawberries (0,008%).

### ADDITIVES PER kg

#### Nutritional additives:

Vitamin A 11.500 I.U.

Vitamin D3 1.150 I.U.

Cupric sulfate pentahydrate (Copper) 49,52 (12,60) mg

#### Technological additives: Antioxidants.

Tocopherol extracts from vegetable oils 36,00 mg

#### Sensory additives: natural substances botanically defined.

Rosemary extract 105,00 mg

### ANALYTICAL CONSTITUENTS

Crude protein 44,60%

Crude fibers 2,00%

Crude oils and fats 16,00%

Crude ash 7,00%
